EXPERIENCE

Gateway Student Accomodation 02/2019 - 01/2020

[Freelance Software Developer](#) Johannesburg

Various Employers, Remote After 13 months of deep learning in software development I got the opportunity to do my first gig which gave way to more opportunities as I can proudly say I've worked on 15 projects medium and large

- Which of your achievements match the job you're applying to?

Freelance Developer 03/2021 - Present

[Remote](#) Remote

I do freelance work for several employers

- Which of your achievements match the job you're applying to?

Junior Web Developer 08/2023 - Present

[Alfeco](#) Rivonia, Sandton, Johannesburg

In this role I am responsible for maintenance of existing sites and also developing new web applications which they provide requirements for. I use a wide range of technologies and I also use new technologies based on what a project requires

- Built a custom web application for internal use that involved Microsoft products integration

EDUCATION

Development Studies 2016 - 2019

[University of Johannesburg](#)

SUMMARY

I have worked on large scale projects whereby we were following a business standard of a maintainable application, I have a deeper knowledge of the technologies I use and are able to build applications based on requirements

VOLUNTEER PROJECTS

[Manage - School Management App](#) 12/2022 - 02/2023

Location

I was asked to build a school management app which would make the parents involved in the daily activities of their child in school. They expected a prototype but I went on to build a Full-stack application which is currently being used by over 22 schools in South Africa

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

AWS · CSS · Git · JavaScript · MySQL ·

NoSql · Software Development · SaaS ·

Nodejs · React · Nextjs · React Native ·

TailwindCSS · HTML · Tool / Technology

STRENGTHS

⚡ Web Development

I spent years trying to master it from learning on my own

🔧 Mobile App Development

I spent so many hours trying to master technologies that allow me to build mobile apps

📄 Python Scripts

I've done several scripts which are used by the IT department of the current company I work for

ACHIEVEMENTS

⚙️ Building my first application

I was so proud of this moment as it allowed me to be motivated enough to continue with my journey of being a Full-stack developer

PASSIONS

💎 Software Development

📄 Penetration testing

⚙️ Software testing
